This publication, *Twenty Questions and Answers About the Ozone Layer: 2010 Update*, is a component of the 2010 report of the Montreal Protocol Scientific Assessment Panel, *Scientific Assessment of Ozone Depletion: 2010*. The answers are based on the information presented in the 2010 and earlier Assessment reports. This component was discussed by the 74 scientists who attended the Panel Review Meeting for the 2010 Assessment report in June 2010. In addition, subsequent contributions, reviews, or comments were made by the individuals listed below.

Coordinating Lead Authors

David W. Fahey
NOAA ESRL Chemical Sciences Division, USA
Michaela I. Hegglin
University of Toronto, Canada

Reviewers and Contributors

Ross J. Salawitch (Special Recognition)
University of Maryland, USA
Stephen A. Montzka (Special Recognition)
NOAA ESRL Global Monitoring Division, USA
Stephen O. Andersen (Special Recognition)
Montreal Protocol Technology and Economic Assessment Panel, USA

Pieter J. Aucamp
Ptersa, South Africa
Alkiviadis F. Bais
Aristotle University of Thessaloniki, Greece
Peter F. Bernath
University of York, UK
Gregory E. Bodeker
Bodeker Scientific, New Zealand
Janet F. Bornman
University of Waikato, New Zealand
Geir O. Braathen
World Meteorological Organization, Switzerland
Peter Braesicke
University of Cambridge, National Centre for Atmospheric Science, UK
Irene Cionni
Deutsches Zentrum für Luft- und Raumfahrt, Germany
Martin Dameris
Deutsches Zentrum für Luft- und Raumfahrt, Germany
John S. Daniel
NOAA ESRL Chemical Sciences Division, USA
Susana B. Diaz
INGEBI / CADIC / Consejo Nacional de Investigaciones Cientificas, Argentina
Ellsworth G. Dutton
NOAA ESRL Global Monitoring Division, USA
James William Elkins
NOAA ESRL Global Monitoring Division, USA
Christine A. Ennis
CIRES-CU / NOAA ESRL Chemical Sciences Division, USA
Veronika Eyring
Deutsches Zentrum für Luft- und Raumfahrt, Germany
Vitali E. Fioletov
Environment Canada, Canada
Marvin A. Geller
Stony Brook University, USA
Sophie Godin-Beekmann
LATMOS/UPMC, CNRS, France
Malcolm K.W. Ko
NASA Langley Research Center, USA
Kirstin Krüger
IFM-GEOMAR / Leibniz-Institute of Marine Sciences, Germany
Lambert Kuijpers
Technical University, The Netherlands
Michael J. Kurylo
Goddard Earth Sciences and Technology Center, USA
Igor Larin
Russian Academy of Sciences, Russia
Gloria L. Manney
Jet Propulsion Laboratory, California Institute of Technology / New Mexico Institute of Mining and Technology, USA
C. Thomas McElroy
Environment Canada, Canada
Rolf Müller
Forschungszentrum Jülich, Germany
Eric R. Nash
Science Systems and Applications, Inc., USA
Paul A. Newman
NASA Goddard Space Flight Center, USA
Samuel J. Oltmans
NOAA ESRL Global Monitoring Division, USA
Nigel D. Paul
Lancaster University, UK
Judith Perlwitz
CIRES-CU / NOAA ESRL Physical Sciences Division, USA
Jean-Pierre Pommereau
LATMOS, CNRS, France
Claire E. Reeves
University of East Anglia, National Centre for Atmospheric Sciences, UK
Stefan Reimann
Swiss Federal Laboratories for Materials Science and Technology, Switzerland
Alan Robock
Rutgers University, USA
Michelle L. Santee
Jet Propulsion Laboratory, California Institute of Technology, USA
Dian J. Seidel
NOAA Air Resources Laboratory, USA
Theodore G. Shepherd
University of Toronto, Canada
Peter Simmonds
University of Bristol, School of Chemistry, UK
Anne K. Smith
National Center for Atmospheric Research, USA
Richard S. Stolarski
NASA Goddard Space Flight Center, USA
Matthew B. Tully
Australian Bureau of Meteorology, Australia
Guus J.M. Velders
Netherlands Environmental Assessment Agency, The Netherlands
Elizabeth C. Weatherhead
CIRES-CU / NOAA ESRL Global Systems Division, USA
Ann R. Webb
University of Manchester, UK
Ray F. Weiss
Scripps Institution of Oceanography, UCSD, USA
Durwood Zaelke
Institute for Governance and Sustainable Development, USA

Coordinating and Technical Editor

Christine A. Ennis

Cover: Satellite images of total ozone distributions in polar regions. The front cover shows the Arctic in the years 1971, 1980, and 2009 (see Q12 of this publication). The back cover shows the Antarctic in the years 1970, 1979, and 2009 (see Q11 of this publication). Cover design by Dennis Dickerson, Respond Grafiks. Technical Management and Contributions by Debra Dailey-Fisher, NOAA ESRL Chemical Sciences Division.
