

This publication, *Twenty Questions and Answers About the Ozone Layer: 2010 Update*, is a component of the 2010 report of the Montreal Protocol Scientific Assessment Panel, *Scientific Assessment of Ozone Depletion: 2010*. The answers are based on the information presented in the 2010 and earlier Assessment reports. This component was discussed by the 74 scientists who attended the Panel Review Meeting for the 2010 Assessment report in June 2010. In addition, subsequent contributions, reviews, or comments were made by the individuals listed below.
